- RTT TATS-C implementation

The Army School System... From the Classroom (MOSQ) to the Battlefield (Readiness)... You make it happen!

Why did we ask you to be here?

- Information exchange both ways
- Continue to improve the relationships between all players in the TASS community - DCSED, USARC, NGB, TIEs, Proponent Schools
- Honest and frank exchange of ideas

What would we like for you to take away from this conference?

- TASS has been institutionalized equivalent credit is established, yet there is more work to be done
- All soldiers, regardless of component, must be trained to the same standard - there should not be separate POIs for the AC and RC
- Everyone here has some influence on the implementation of TASS - tell the "TASS Story" at every opportunity
